

2022

IT'S ALMOST BEWILDERING THAT 2022 REPRESENTS FOUR YEARS OF DEDICATION TO THE UNCOMPROMISING RIDE.

From our home in the Sierra Nevada mountains, we've designed our 2022 collection with emphasis on the needs of the everyday rider through a wider range of trail and all mountain options for men, women and youth, while fine-tuning our popular staples; a culmination of our undying loyalty to dirt and a precision focus on building nothing but the most comfortable, durable and reliable bike footwear.

With purpose and detail in every stitch, weld and hexagon aimed towards a better ride experience, our design philosophy embodies the idea that the rider should focus on the trail ahead rather than the gear below.

RIDER DESIGNED. RIDER OWNED.

THANKS FOR YOUR SUPPORT.

TECHNOLOGY

RUBBER COMPOUNDS AND OUTSOLES

Our exclusive hexagon pattern outsoles feature deep lugs, allowing for penetration of pedal pins in order to obtain optimal grip in any condition. The outsoles for our clip shoes feature 40mm wide cleat windows for compatibility with all mountain clip pedals, and a long line of forward and aft adjustability with index markings for precision cleat placement.

Rk Rubber Kinetics x *RISE CONCEPTS* RUBBER COMPOUND COLLABORATION

We've partnered with Rubber Kinetics to develop a series of exclusive rubber compounds, specific to our needs.

PARTNERS

D3O²

We partner with D3O to incorporate impact absorbing materials in our insoles and medial collar protection throughout much of our line. This soft, lightweight and flexible material is ideal for footwear- reducing feedback from the trail and harsh impacts through our Zone Technology insoles and adding crank protection in our premium gravity and enduro models.

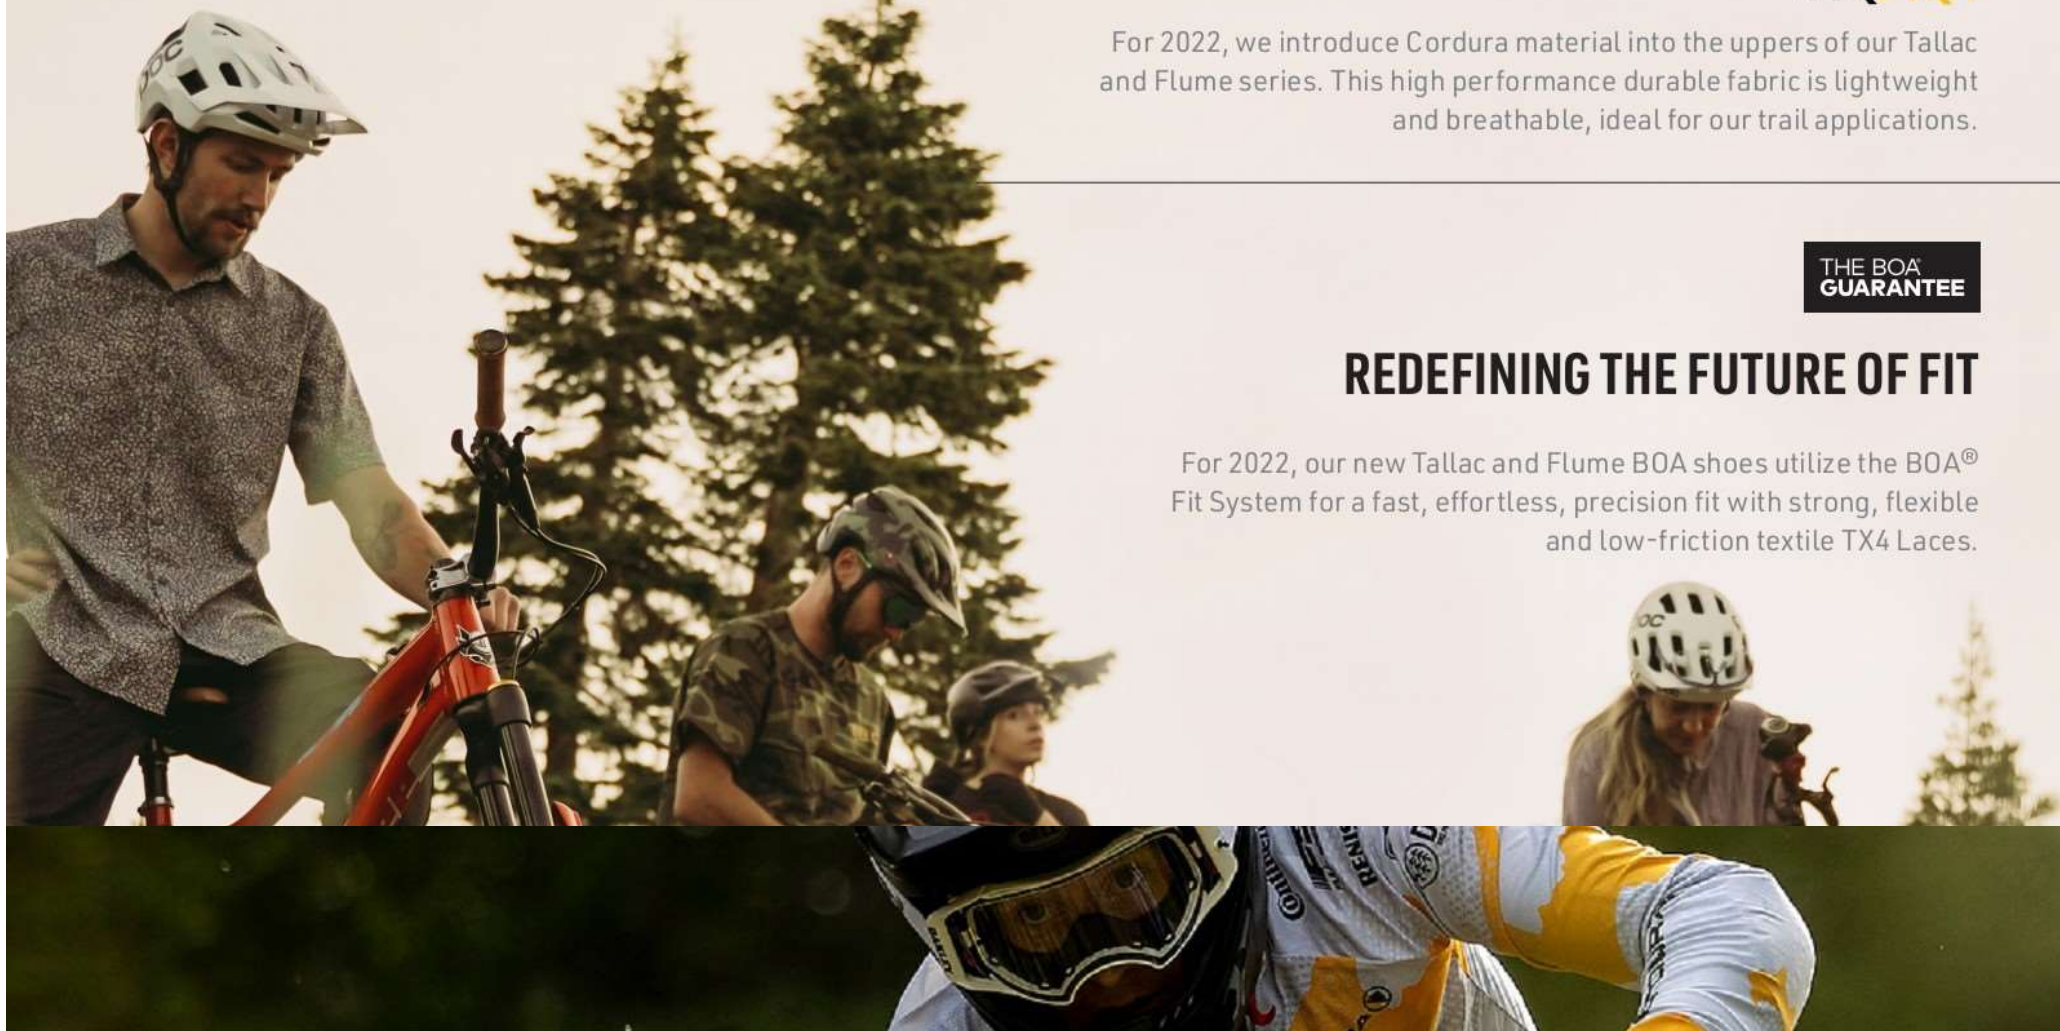

CORDURA

For 2022, we introduce Cordura material into the uppers of our Tallac and Flume series. This high performance durable fabric is lightweight and breathable, ideal for our trail applications.

THE BOA[®]
GUARANTEE

REDEFINING THE FUTURE OF FIT

For 2022, our new Tallac and Flume BOA shoes utilize the BOA[®] Fit System for a fast, effortless, precision fit with strong, flexible and low-friction textile TX4 Laces.

MEN'S

TALLAC CLIP BOA
MEN'S

TALLAC INFUSES RIDE CONCEPTS DNA WITH OUTDOOR INSPIRATION FOR A FRESH TAKE ON A PURE TRAIL-CONQUERING AND ADVENTURE RIDING FLAT PEDAL SHOE. THE BONDED CORDURA MESH UPPER PROMOTES COMFORT AND DURABILITY WHILE BEING LIGHTWEIGHT AND IMMENSELY BREATHABLE. TALLAC CLIP BOA USES THE BOA® FIT SYSTEM FOR A FAST, EFFORTLESS, PRECISION FIT WITH STRONG, FLEXIBLE AND LOW-FRICTION TEXTILE TX4 LACES. THE NEW OUTSOLE DESIGN FEATURES REVERSE HEX TRACTION ON THE TOE AND HEEL FOR OFF-BIKE COMFORT WHEN HIKING BECOMES NECESSARY, AND A LONG CLEAT RUNWAY ALLOWS FOR EASY INTEGRATION WITH THE PEDAL.

BLACK/RED | 2361

- Lightweight bonded upper featuring Cordura mesh for durability and breathability
- BOA® Fit System with flexible, low-friction textile TX4 Laces is expertly configured for performance
- TPU toe and heel protection with reinforced anti-abrasion film
- TPU mud guard to protect against dirt, debris and rubbing
- Hexagon outsole featuring reverse hex

traction pattern on toe and heel for hike able climbs and descents

- Extended cleat line (42mm) for maximum cleat placement options and cleat pocket runway
- EVA midsole for extra cushion and support
- Hook and loop strap for additional foot retention
- Heel pull tab for easy entry

LIVEWIRE

YOUTH

DESIGNED AROUND A YOUTH FIT, LIVEWIRE IS THE SHOE OF CHOICE WHEN EVERY DAY IS SPENT AT THE BIKE PARK. DURABLE AND FUNCTIONAL BUT STILL COOL ENOUGH FOR SCHOOL, PARENTS CAN REST ASSURED WITH ONE LESS WORRY.

CHARCOAL/BLACK | 2299

BLUE SMOKE/LIME | 2300

- Durable, synthetic upper with anti-abrasion mesh for breathability
- Custom molded toe and heel protection
- EVA midsole provides support and shock absorption
- Fully gusseted tongue prohibits intake of dirt and debris
- Elastic lace tuck to keep laces secure

OUTSOLE COMPOUND

4.0 MAX GRIP

VICE

YOUTH

VICE IS THE RESULT OF TOO MANY UNANSWERED DEMANDS FOR FAR TOO LONG FROM DIRT JUMP AND SLOPESTYLE RIDERS ALIKE WHO RELISH PEDAL FEEL AND COMPLIANCE WITHOUT CONCEDED DURABILITY AND PROTECTION. DEVELOPED WITH KYLE STRAIT, VICE FEATURES OUR RC FUZION OUTSOLE- AN INVERSE, GRADIENT DIAMETER HEXAGON PATTERN DESIGNED TO BRING THE PEDAL CLOSER TO THE RIDER. SLOPED-ANGLE INVERSE HEXAGONS, VARYING IN DIAMETER FROM 9MM AT THE TOE AND HEEL TO 7MM AT THE PEDAL CONTACT AREA, ALLOW THE PEDAL TO "INJECT" INTO THE OUTSOLE FOR UNRIVALED SENSITIVITY. KNOWING YOUR VICES BRINGS YOU CLOSER TO YOUR OBSESSION. ACCEPTING THEM MAKES YOU INVINCIBLE.

CAMO/BLACK | 2447

MIDNIGHT BLUE | 2323

- RC Fuzion outsole features sloped-angle inverse hexagons, varying in diameter from 9mm at the toe and heel to 7mm at the pedal contact area
- Suede upper is durable and protective
- Cup outsole design features 3mm EVA for additional shock absorption and comfort
- Internal TPU toe protection
- Fully gusseted tongue prohibits intake of dirt and debris

OUTSOLE COMPOUND

6.0 HIGH GRIP

A low-angle, close-up shot of a person's legs in motion, running on a dirt trail. The person is wearing white socks with pink and blue horizontal stripes and black athletic shoes. A black knee brace is visible on the right leg. In the background, a bicycle is partially visible, and the scene is set in a sunlit forest with trees and foliage. The word "SOCKS" is overlaid in large white letters.

SOCKS

FIFTY/FIFTY
UNISEX
