

A person is riding a mountain bike on a dark, rocky trail. The rider is wearing a light-colored shirt and dark shorts. The trail is steep and appears to be made of dark volcanic rock. In the background, there are more rocky slopes and a valley. The overall scene is dramatic and rugged.

TRAIL STORIES

LIVE TRAIL LIFE

We all create trail stories. Each one unique and written in dirt. We spin tales of speed, ride the twists of the trail, we forge friendships and moments that last forever.

INNOVATION
AWARD 2021

CARVE HIP-HUGGER

The iXS Women's Carve Hip-Hugger Shorts are the new benchmark in comfort, functionality and mobility in women's mountain bike clothing. iXS banish buttons and velcro and use an elasticated waist for a secure fit of the shorts. The Hip-Hugger Shorts are body-hugging at the top, similar to yoga pants, with a fitted back. Pressure points goodbye – hello all-day comfort 2.0! The design is kept sporty and modern and the legs have all the features, like a lift ticket pocket, that you could want from a pair of modern mountain bike shorts. In addition, they are made from recycled PET fibres that are especially stretchy and also ecologically sustainable.

Die Women's Carve Hip-Hugger Shorts von iXS bilden die neue Benchmark an Komfort, Funktionalität und Beweglichkeit in der MTB-Damen-Sportbekleidung! iXS verbannt Knöpfe und Klettverschlüsse und sorgt mit einem elastischen Bund für einen sicheren Sitz der Shorts. Die Hip-Hugger Shorts schmiegen sich im oberen Bereich, ähnlich wie Yogapants, besonders gut an den Körper an und schließen auch mit der Rückenpartie hervorragend ab. Druckstellen ade – hallo Ganztagskomfort 2.0! Das Design ist sportlich und modern gehalten und die Hosenbeine besitzen alle Funktionen und Taschen, die man sich von modernen MTB-Shorts wünscht, z. B. eine Liftticket-Tasche. Darüber hinaus werden die Shorts aus recycelten PET-Fasern hergestellt, die besonders dehnbar und zudem ökologisch nachhaltig sind.

VERANTWORTUNG TRAGEN

Als Hersteller und Vermarkter hochwertiger Sporttextilien ist es uns wichtig dem Thema Nachhaltigkeit entsprechende Beachtung zu schenken.

Nachhaltigkeit ist eine Eigenschaft, ein Lebensstiel, eine Überzeugung und vor allem eine Verantwortung. Nicht nur im Bereich der Rohstoffe sondern auch in deren Beschaffung, deren Weiterverarbeitung und schlussendlich deren Vermarktung als Marktreifes Produkt im globalen Markt.

STOFFE AUS RECYCELTEN MATERIALIEN

Unser Ausgangsmaterial für Recycling-Stoffe sind z.Bsp. gebrauchte PET-Flaschen. Sie werden gesammelt, gereinigt, zermahlen und zu einem Granulat verarbeitet, das in einem nächsten Arbeitsschritt eingeschmolzen und dann zu Garn versponnen wird. Auf diese Weise entsteht hochwertiges Polyestergewebe, bei dem bis zu 50 Prozent Energie im Herstellungsprozess und zirka 50 Prozent an CO2-Emissionen eingespart werden.

KARBON FREIE PRODUKTE

Wir haben uns sehr spezifisch dazu entschlossen keine Karbon Fasern in unseren Produkten zu verwenden. Wir sind uns möglicher Vorteile von Karbon bewusst. Wir glauben aber, dass die Verwendung solcher Fasern nur im Nischenbereich notwendig sein kann und unterstützen die verbreitete Anwendung dieses meiest nicht-recyclebaren Materials nicht.

TAKE RESPONSIBILITY

As a company that produces and sells high quality sports apparel & equipment, we have a commitment to continuous improvement and learning with regards to environmental consciousness and how we conduct business.

Sustainability is a product property, a lifestyle, a conviction, and above all a responsibility – not just in the area of raw materials, but also in connection with the procurement and processing of those materials, and right through to the distribution of the finished product to the global market.

FABRICS BASED ON RECYCLED MATERIALS

As an example, our raw materials for apparel are derived from recycled PET bottles. These are collected, cleaned, ground, processed and then melted down to be spun into yarn. This results in a top-quality polyester textile, saving up to 50 percent of the energy used in the production process and around 50 percent of CO2 emissions in comparison to using virgin Polyester.

CARBON FIBER FREE PRODUCTS

We have intentionally chosen not to include any carbon fibre in our products. While we recognize the virtues of carbon fibre, we believe that it has a place in a very small niche in the bicycle sector and we do not support the excessive application of this non-recyclable material in mass production.

SUSTAINABLE PROPERTIES

OUR EFFORTS INTO MATERIAL CHOICE, ENVIRONMENTAL IMPACT, WORKMANSHIP, FUNCTIONALITY, QUALITY, PRODUCT CYCLES AND LONGEVITY.

Being responsible in what we do and how we do it is a fundamental question we ask ourselves every day. In a world of overconsumption, devaluation, economical trade-offs and depleting natural resources, it is becoming more and more important to think and act responsibly. Therefore we are continuously evaluating how we can optimize the supply chain, monitor and mitigate sales and inventory, understand consumer behaviors, and ensure that at every step we are creating products with respects to the values of sustainability so that we all can enjoy our **#iXSPLAYGROUND** for generations to come.

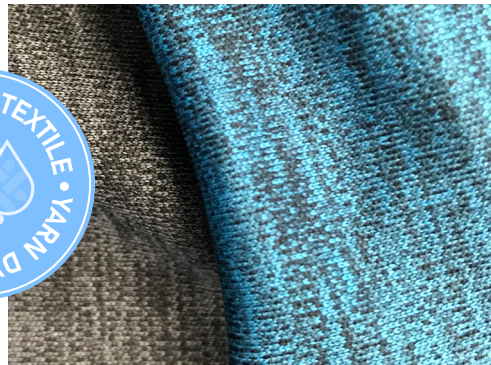

Verantwortung zu übernehmen ist für uns eine

fundamentale Aufgabe der wir uns täglich stellen. Die unterschiedlichen Herausforderungen und die damit verbundenen Kompromisse zu akzeptieren fordert uns Lösungen zu finden und die Sache richtig zu machen. In einer Welt die von Konsum, Geiz ist Geil, Bedrohungen sowie ökologischen und ökonomischen Herausforderungen angetrieben wird, ist es umso wichtiger verantwortungsvoll zu handeln, die Herstellungskette, die Verkaufskette und den Konsumenten wert zu schätzen. Dabei streben wir an, dass jeder Schritt den wir machen und jedes Produkt welches wir entwickeln mit nachhaltigen Werten kreiert wird um die Zukunft unseres **#iXSPLAYGROUND** auch langfristig sicherzustellen.

YARN DYED TEXTILE

Yarn dyed textile. Improved touch and high degree of comfort (soft touch) due to the method of dyeing instead of sublimation printing. Fibers remain in its original form providing its original function. Long-lasting colorfast.

Fastergefärbte Textilien. Durch den Prozess der Faserfärbung anstelle traditioneller Bedruckung, verbessert sich die Haptik und der Tragekomfort. Die Fasern bleiben unverändert in ihrer originalen Form. So stellen wir die eigentliche Funktion und die Farbestabilität der Faser auf lange Zeit sicher.

RECYCLED FIBERS

Made for the environmentally-conscious consumer, recycled fibers are made from 100% post-consumer recycled PET packaging (bottles).

Für umweltbewusste Konsumenten gemacht. Unsere recycelten Fasern werden aus 100% gebrauchten und recycelten PET Verpackungen (Flaschen) gefertigt.

ORGANIC COTTON

Organic cotton is a skin-friendly textile. It is health-friendly and environmentally-friendly and is produced and certified to organic agricultural standards. The production is made by natural processes, without any artificial inputs. No toxic chemicals or genetically modified organisms are applied and it consumes 90% less water than non-organic cotton.

Bio-Baumwolle ist ein hautfreundliches Textil. Es ist gesundheits- und umweltfreundlich. Sie wird nach zertifizierten Standards angebaut und geerntet. Hergestellt durch natürliche Prozesse ohne künstliche Zusatzstoffe, ohne Giftstoffe und ohne genetisch modifizierten Organismen. Bio-Baumwolle verbraucht 90% weniger Wasser als nicht-Bio Baumwolle.

ANTI-ODOR TREATED

Ultra-Fresh inhibits the growth of bacteria and fungi responsible for creating unpleasant smells. By controlling unwanted microbes, antibacterial additives help to keep products fresh, clean, and odor free.

Ultra-Fresh minimiert das Wachstum von Bakterien und Pilzen, verantwortlich für die Bildung von unangenehmen Gerüchen. Die Kontrolle ungewollter Mikroben durch antibakterielle Additive bleiben die Produkte frisch, sauber und Geruchsfrei.

X-STRETCH

A multi-directional (4-Way) stretch made of recycled Polyester & Elastane mix providing higher comfort and better fit.

Verbesserter Komfort und Passform durch multidirektionalen (4-Way) Stretch hergestellt aus recyceltem Polyester & Elastane Faserfmx.

TESTED & CERTIFIED

Products undertake a detailed property test before going into production. Materials are tested in external laboratories following given standards and environmental requirements.

Produkte werden einem detaillierten Eigenschaftstest unterzogen bevor die Materialien in der Produktion angewendet werden. Materialien werden in externen Labors auf Standards und Umweltaspekte geprüft.

TECH HELMETS

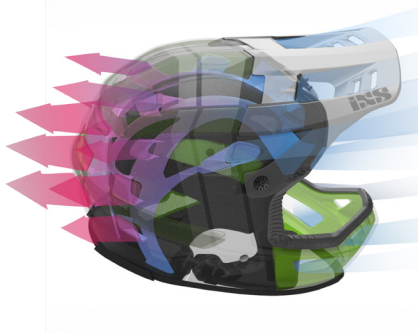

X-FRAME™

Patented fully in-moulded construction. Unique in its construction and unique in the market. Unibody in-molded EPS to eliminate weak joints. High strength to weight ratio. Increased frontal impact strength and security.

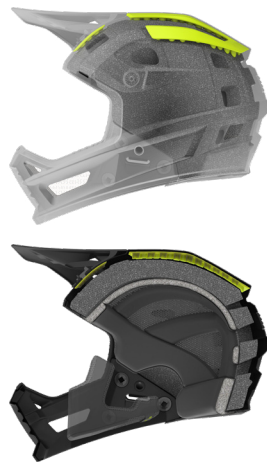

Patentierte inmould Konstruktion im Ganzen. Einzigartige Konstruktion. In sich geschlossene EPS Einheit zur Reduzierung von kritischen Verbindungen. Verstärkter Frontalschutz durch eingeschlossene Verstärkungs-Bügel.

VORTEX VENTILATION SYSTEM

Large intake vents are directly linked via channels in the EPS with multiple exhaust vents to keep cool air flowing through the helmet and ensure warm air exits.

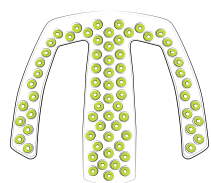

Belüftungskanäle lassen kühle Luft durch den Helm und gewährleisten eine konstante Luftzirkulation. Warme Luft verlässt das System durch grosszügige Auslässe.

X-MATTER/ X-RAIL™

Xmatter inserts positioned across major impact zones act as a buffer between shell and EPS, deforming on soft impacts and stiffening on harder impacts to both increase helmet longevity and aid in energy dissipation.

Strategisch positionierte Xmatter Komponenten dienen als Puffer zwischen Helmschale und EPS. Diese verformen sich bei weichem Aufprall und komprimieren bei starkem Aufprall um zum einen die Langlebigkeit zu optimieren und zum anderen die Aufprallkräfte zu reduzieren.

4 in 1 mould

Optimal strength, weight and ventilation. Shock absorbing EPS (Expanded Polystyrene) foam is moulded directly to an outer hard shell.

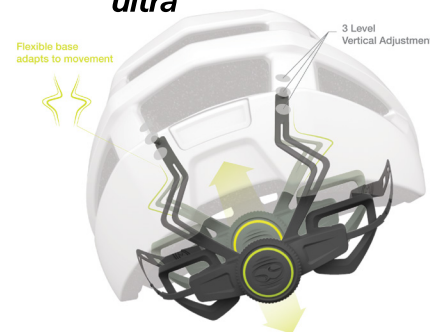

In-mould Technologie zur Optimierung von Gewicht, Ventilation und Stabilität. Die Äussere Schale wird während dem Herstellungsprozess mit dem aufprallabsorbierenden EPS Material zu einer Einheit verbunden.

Dial disc. Micro adjustments. Easy to access and to adjust to personal comfort.

Mikro-Verstellbarkeit durch Drehrad. Einfach zum Bedienen und Einstellen.

ergo fit ultra

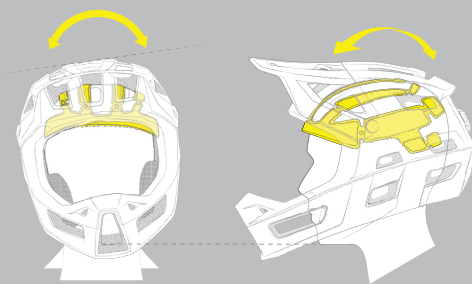

Horizontal and vertical head ring adjustment. Helps to optimize fit and comfort.

Horizontal und vertikal einstellbares Kopfband. Unterstützt die optimale Passform und den Sitz des Helms.

Mips

The Mips Brain Protection System is a helmet-integrated, low-friction layer designed to reduce rotational motion transferred to the brain from angled impacts to the head.

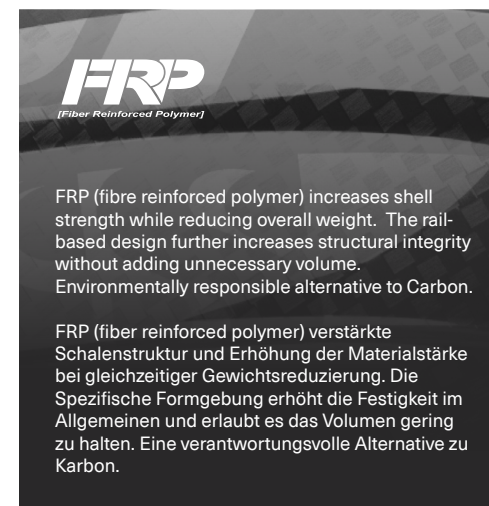

Das Mips Brain Protection System ist ein im Helm integriertes System, welches über Einlagen mit geringer Reibungsoberfläche auftretende Rotationskräfte aufs Gehirn reduziert.

FIDLOCK®

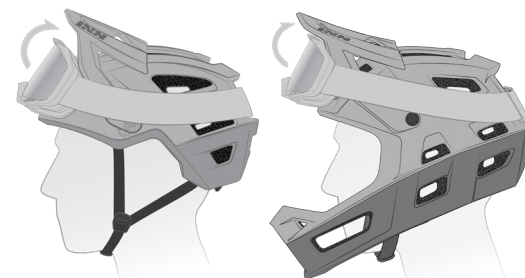

Innovative, user-friendly fastener system that combines the advantages of a magnetic fastener with those of mechanical locking functionality.

Innovatives, benutzerfreundliches Verschlusssystem, welches die Vorteile eines Magnetverschlusses und jene eines konventionellen Verschlusses vereinen.

FRP (fibre reinforced polymer) increases shell strength while reducing overall weight. The rail-based design further increases structural integrity without adding unnecessary volume. Environmentally responsible alternative to Carbon.

FRP (fibre reinforced polymer) verstärkte Schalenstruktur und Erhöhung der Materialstärke bei gleichzeitiger Gewichtsreduzierung. Die Spezifische Formgebung erhöht die Festigkeit im Allgemeinen und erlaubt es das Volumen gering zu halten. Eine verantwortungsvolle Alternative zu Karbon.

3-LEVEL VISOR ADJUSTABILITY

Allows space to rest goggle and to adjust visor to preferred position.

Dreistufige Positionierung des Visiers. Ermöglicht das Platzieren einer Goggle unterhalb vom Visier.

XULT DH FULL FACE HELMET

- FRP reinforced helmet shell
- Vortexventilation system with integrated air channels
- Xmatter/Xrail impact absorption liner
- adjustable visor
- washable padding
- double-D safety closure

SIZE XS 49-54cm, SM 54-58cm, ML 58-62cm
ITEM-NO. 470-510-1120

LIMITED OFFER!

iXS TRIGGER AM MIPS + PIT VIPER CARNIVORE PRODUCT BUNDLE

iXS Trigger AM Mips helmet

- Inmould technology, external and internal ventilation channels
- Removable All-Mountain style visor
- Dial adjuster with precision interlocking
- ErgoFit Ultra system for horizontal and vertical adjustment
- Adjustable straps
- EN1078, CPSC, KC

iXS Trigger AM Mips Helm

- Inmould Technologie, externe und interne Belüftungskanäle
- Abnehmbares Visier im All-Mountain Stil
- Verstellrad mit Präzisionsverzahnung
- ErgoFit Ultra System mit horizontaler und vertikaler Verstellung
- Verstellbare Riemen
- EN1078, CPSC, KC

+ Pit Viper The Carnivore Shades

- 100% UV protection
- 14% light transmission
- Polycarbonate lens (blue tinted)

+ Pit Viper The Carnivore Brille

- 100% UV Schutz
- 14% Lichtdurchlass
- Polycarbonate Linse (blau gefärbt)

SIZE SM 54-58cm, ML 58-62cm
ITEM-NO. 470-510-9113-005 (YELLOW)

GOOGGLES

PERIPHERAL VISION

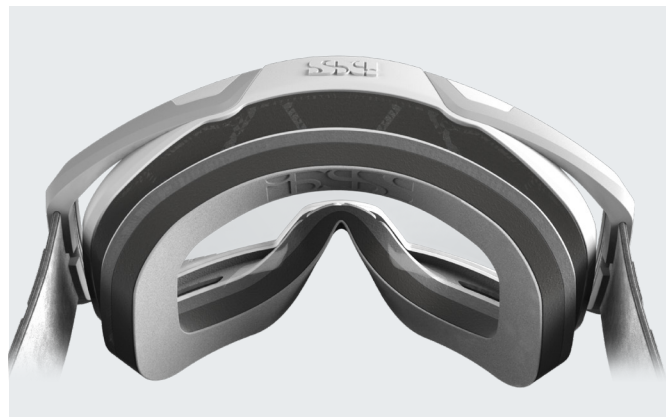

TECH GOGGLES

IMPACT PROTECTION

Certified and tested safety. Passes and exceeds EN1938:2012.

Zertifizierte und getestete Sicherheit. Erfüllt EN1938:2012.

BREATHABLE COMFORT PADDING

3-layer, triple-density foam for improved comfort. High breathability, moisture wicking, highly aerated.

3-Lagen, tripple-density Schaumstoff für verbesserten Komfort. Atmunsaktiv, hoher Feuchtigkeitstransport, grosszügige Belüftung.

XOPTIC LENS TECHNOLOGY

Iridium tinting enhances definition and clarity.

Iridium Tönung für erhöhte Präzision und verbesserte Sichtbarkeit.

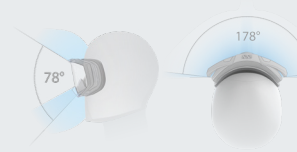

POLARIZED GLARE FILTRATION

Polarizing filters increase color saturation and decrease reflections.

Polarisierte Filter erhöhen die Farbintensität und entfernen Reflektionen.

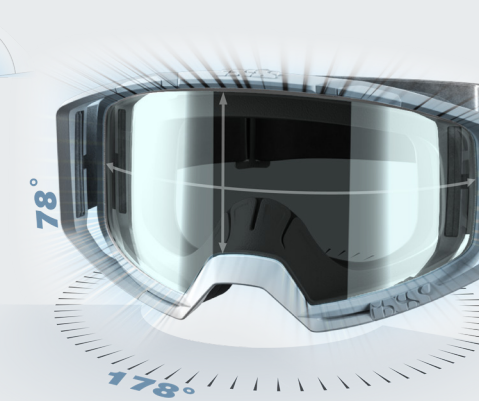

WIDE VISION
178°/78°

178/78 LARGE FIELD OF VISION

A minimal frame combined with a large lens perimeter that sits lower over the nose enable a massive field view with unobstructed 178° horizontal and 78° vertical peripherals.

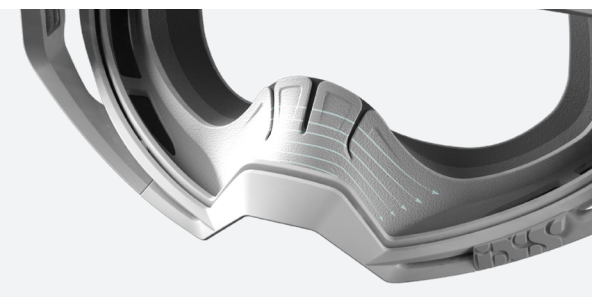

Ein minimaler Brillenrahmen kombiniert mit einem grossen Linsenperimeter welcher tief über der Nase sitzt. Dies ermöglicht ein optimales und grosses 178° horizontales und 78° vertikales Sichtfeld ohne Sichtbehinderung.

ERGONOMIC FRAME

Ultra-flexible frame distributes pressure evenly without restricting airflow. Textured inner surface reduces glare.

Der extrem flexible Rahmen verteilt den Anpressdruck regelmässig ohne die Belüftung zu beeinträchtigen. Die texturierte Oberfläche reduziert Verspiegelungen.

UV PROTECTION

UV360-380nm protection filter blocks out UV rays.

UV360-380nm Filter blockiert die schädlichen UV-Strahlen

ANTI-FOG

Prevents condensation from humidity.

Verhindert die Kondensierung von Feuchtigkeit.

ANTI-SCRATCH

Reduces hairline scratches.

Reduziert feine Kratzer.

LP = Low Profile.
+/- 5mm reduced profile

LP GOGGLES / LENSES

LP stands for Low Profile. The LP lenses/goggles are reducing the overall size of Trigger and Hack and make them fit for smaller heads and/or face openings on full face helmets. They are compatible with iXS's standard Trigger and Hack goggle frames.

LP steht für "Low Profile". Die LP Gläser/Goggles reduzieren die Grösse der Trigger und Hack. Dadurch passt die Goggle auch auf etwas kleinere Köpfe oder in kleinere Gesichtsoffnungen bei Full Face Helmen. Sie sind mit den iXS standard Trigger und Hack Goggles kompatibel.

TRIGGER+ POLARIZED GOGGLE

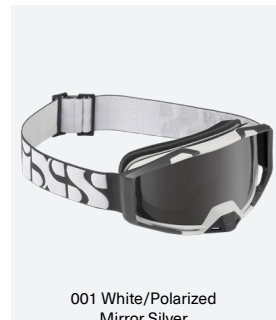

- Injected 3D formed polarized lenses, anti-fog, anti-scratch, hydrophobic
 - incl. single flat clear lens
 - Wide, unobstructed field of vision (178°x78°)
 - 3-ply foam for increased comfort
 - 45mm elastic strap
 - Outriggers with universal helmet compatibility
 - EN1938 certified
- geformte 3D polarisierte Linse, anti-fog, anti-scratch, wasserabweisend
 - inkl. single clear Linse
 - Weitsichtwinkel für ungehindertes Blickfeld (178°x78°)
 - 3-Lagen Schaum für verbesserten Komfort
 - 45mm Brillenband
 - Outriggers für perfekte Einpassung mit div. Helmen
 - EN1938 zertifiziert

NOTE:
• Trigger+ can be upgraded with Roll-Off System.

HINWEIS:
• Trigger+ kann mit dem Roll-Off System nachgerüstet werden.

003 Black/Polarized
Mirror Gold

001 White/Polarized
Mirror Silver

ITEM-NO. 469-510-9011 (Polarized)

TRIGGER+ ROLL-OFF GOGGLE

- Roll-Off Kit pre-assembled
 - Injected 3D formed polarized lenses, anti-fog, anti-scratch, hydrophobic
 - incl. clear double lens
 - Wide, unobstructed field of vision (178°x78°)
 - 3-ply foam for increased comfort
 - 45mm elastic strap
 - Left and right handed, exchangeable containers. Single Outriggers are included.
 - EN1938 certified
- Roll-Off Kit vorinstalliert
 - geformte 3D polarisierte Linse, anti-fog, anti-scratch, wasserabweisend
 - inkl. transparente Doppelglas Linse
 - Weitsichtwinkel für ungehindertes Blickfeld (178°x78°)
 - 3-Lagen Schaum für verbesserten Komfort
 - 45mm Brillenband
 - Für Links- und Rechshänder austauschbar. Die einzelnen "Outrigger-Bügel" sind im Lieferumfang enthalten.
 - EN1938 zertifiziert

NOTE:
• Trigger+ can be upgraded with Polarized lenses.

HINWEIS:
• Trigger+ kann mit der Polarized Linse nachgerüstet werden.

003 Black, Roll Off

001 White, Roll Off

ITEM-NO. 469-510-9010 (Roll-Off)

TRIGGER GOGGLE

- Injected 3D formed lenses, anti-fog, anti-scratch
- incl. single flat clear lens
- Wide, unobstructed field of vision (178°x78°)
- 3-ply foam for increased comfort
- 45mm elastic strap
- Outriggers with universal helmet compatibility
- EN1938 certified

- geformte 3D Linse, anti-fog, anti-scratch
- inkl. single clear Linse
- Weitsichtwinkel für ungehindertes Blickfeld (178°x78°)
- 3-Lagen Schaum für verbesserten Komfort
- 45mm Brillenband
- Outriggers für perfekte Einpassung mit div. Helmen
- EN1938 zertifiziert

NOTE:

- LP = Low profile, 5mm smaller lens profile to compensate smaller heads and/or smaller sized helmets.
- Trigger can be upgraded with Polarized lens or Roll-Off System.

HINWEIS:

- LP = Low Profile, 5mm reduziertes Linsenprofil um kleinere Köpfe oder Helme zu kompensieren.
- Trigger kann mit der Polarized Linse oder dem Roll-Off System nachgerüstet werden.

ITEM-NO. 469-510-9020-...-OS (TRIGGER STANDARD)
469-510-9020-...-LP (TRIGGER LP - LOW PROFILE)

HACK GOGGLE

- Injected 3D formed lenses, anti-fog, anti-scratch
- Wide, unobstructed field of vision (178°x78°)
- 2-ply foam for increased comfort
- 40mm elastic strap
- EN1938 certified

- geformte 3D Linse, anti-fog, anti-scratch
- Weitsichtwinkel für ungehindertes Blickfeld (178°x78°)
- 2-Lagen Schaum für verbesserten Komfort
- 40mm Brillenband
- EN1938 zertifiziert

ITEM-NO. 469-510-9030 (STANDARD ONLY)

TRIGGER "CLEAR" GOGGLE

- flat 2D clear lens, anti-fog
- Wide, unobstructed field of vision (178°x78°)
- 3-ply foam for increased comfort
- 45mm elastic strap
- Outriggers with universal helmet compatibility
- EN1938 certified

- flache 2D transparente Linse, anti-fog
- Weitsichtwinkel für ungehindertes Blickfeld (178°x78°)
- 3-Lagen Schaum für verbesserten Komfort
- 45mm Brillenband
- Outriggers für perfekte Einpassung mit div. Helmen
- EN1938 zertifiziert

HACK "CLEAR" GOGGLE

- flat 2D clear lens, anti-fog
- Wide, unobstructed field of vision (178°x78°)
- 2-ply foam for increased comfort
- 40mm elastic strap
- EN1938 certified

- flache 2D transparente Linse, anti-fog
- Weitsichtwinkel für ungehindertes Blickfeld (178°x78°)
- 2-Lagen Schaum für verbesserten Komfort
- 40mm Brillenband

ROLL-OFF KIT

Roll-Off containers & assembling kit, 1 film roll, compatible with tear-Off film sheets.
ITEM-NO. 469-510-9090-000

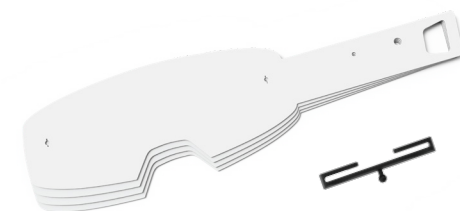

ROLL-OFF SPARE FILMS

6 rolls, spare axle
ITEM-NO. 469-510-9091-000

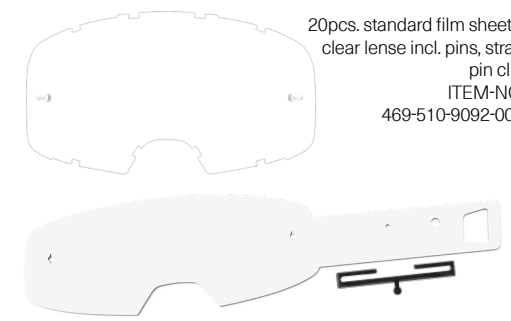

TEAR-OFF FILMS

A - Tear-Off standard (20pcs film sheets, strap pin clip)
B - Tear-Off Pro (2x7pcs laminated film sheets)
ITEM-NO. A - 469-510-9093-000 (STANDARD)
B - 469-510-9094-000 (PRO)

TEAR-OFF KIT

20pcs. standard film sheets, clear lense incl. pins, strap pin clip
ITEM-NO. 469-510-9092-000

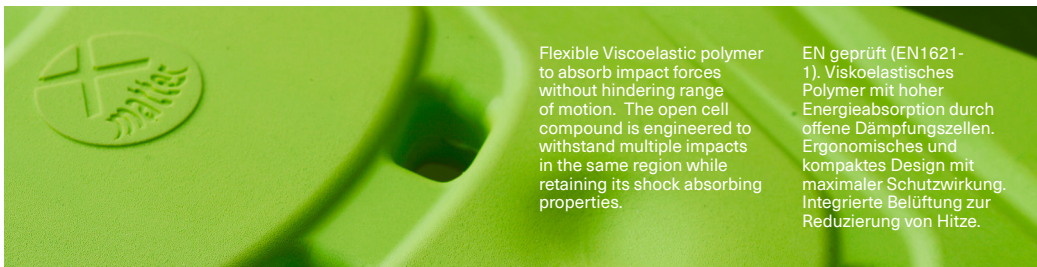

ARMOUR
PROTECTIVE GEAR

 matter

TECH PROTECTIVE

Flexible Viscoelastic polymer to absorb impact forces without hindering range of motion. The open cell compound is engineered to withstand multiple impacts in the same region while retaining its shock absorbing properties.

EN geprüft (EN1621-1). Viskoelastisches Polymer mit hoher Energieabsorption durch offene Dämpfungszellen. Ergonomisches und kompaktes Design mit maximaler Schutzwirkung. Integrierte Belüftung zur Reduzierung von Hitze.

Q-matter

EN approved (EN1621-1) multi impact energy absorption pads. Absorbs impacts while keeping vibrance to a minimum.

EN geprüft (EN1621-1). Aufprallabsorptionspolster. Absorbiert die Energie und reduziert die Resonanz auf ein Minimum.

HEX matter

Lightweight breathable impact absorption. Hexagonal cell structure absorbs impacts without adding weight.

Die hexagonale Zellenstruktur ermöglicht eine hohe Stabilität und beste Absorption bei extrem niedrigem Gewicht.

ASYMMETRICAL DESIGN

Left and right specifically and individually formed for improved comfort and fit. Prevents from moving while pedalling.

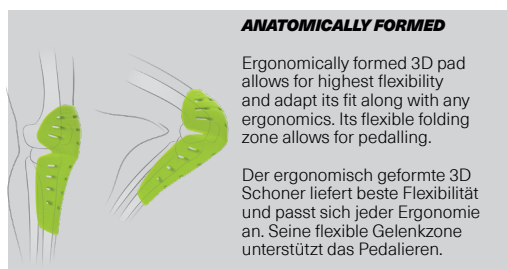

Links und rechts individuell und spezifisch geformte Polsterung. Verbesserter Tragekomfort durch ergonomische Passform. Verhindert das Verrutschen beim Pedalieren.

VORTEX™

Large vents are directly linked via channels to keep cool air flowing through the pad and ensure warm air and humidity exit.

Belüftungskanäle lassen kühle Luft durch den Schoner und gewährleisten eine konstante Luftzirkulation. Warme Luft und Feuchtigkeit verlässt das System durch großzügige Öffnungen.

ANATOMICALLY FORMED

Ergonomically formed 3D pad allows for highest flexibility and adapt its fit along with any ergonomics. Its flexible folding zone allows for pedalling.

Der ergonomisch geformte 3D Schoner liefert beste Flexibilität und passt sich jeder Ergonomie an. Seine flexible Gelenkzone unterstützt das Pedalieren.

FlexZIP

Stretchable and flexible zipper allows garments to move with contours of the body without excess bunching.

Dehnbarer und flexibler Reißverschluss welcher den ergonomischen Eigenschaften von Körper und Gelenken folgt und dabei die Faltung und Bündelung von Material reduziert.

Aero Mesh™

Lightweight and anti-bacterial treated 3D performance mesh, optimized for breathability and moisture wicking.

Leichtes und antibakteriell behandeltes 3D Mesh. Optimiert auf Atmungsaktivität und Feuchtigkeitstransport.

adidas

Dual-compound hard shells provide skid and puncture protection while remaining flexible.

Zweikomponenten Kompressionsschalentechnologie zur Erhöhung der Absorptionsfähigkeit bei aufrecht erhaltender Flexibilität.

LoopLock

Unique elastic Velcro weave ensures a secure fit without sacrificing flexibility or breathability.

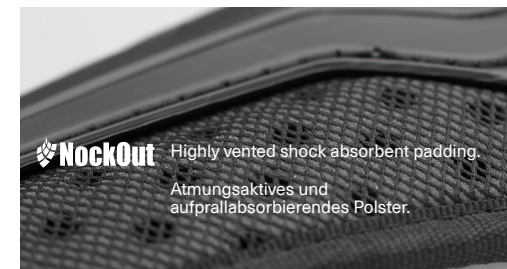

Die einzigartige Velcro Technologie bringt ein Maximum an Sicherheit und optimierter Dekompression. Das integrierte LoopLock™ Gewebeerflichtung bietet hohe Atmungsaktivität, Flexibilität und erhöhten Komfort.

ergoform

Form-fitting Ergonomic design allows for unobstructed full range of motion.

Die ergonomische Passform erlauben dem Körper sich uneingeschränkt zu bewegen.

NockOut

Highly vented shock absorbent padding. Atmungsaktives und aufprallabsorbierendes Polster.

Super Light

Optimized materials ensure protectors are as light as possible for maximum comfort and reduced fatigue.

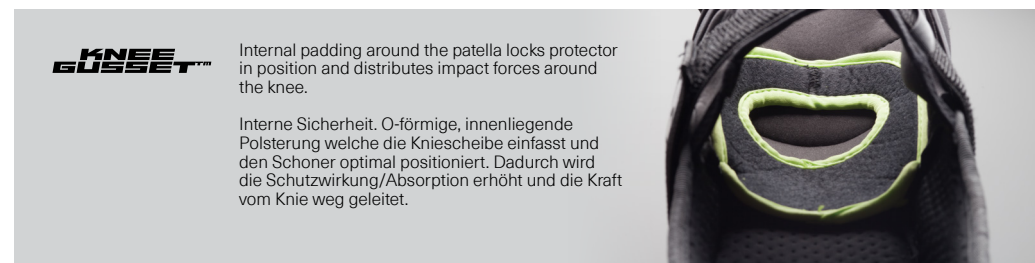

Optimierte Materialien garantieren einen hohen Komfort bei niedrigem Gewicht.

squeezebox PATENTED

Patented shell linkage allows for full articulation without sacrificing protection.

Das patentierte und bewegliche Gelenksystem bietet hohe Flexibilität beim Bewegen/Pedalieren während die Schutzwirkung an optimaler Position aufrecht gehalten wird.

KNEE GUSET™

Internal padding around the patella locks protector in position and distributes impact forces around the knee.

Interne Sicherheit. O-förmige, innenliegende Polsterung welche die Kniescheibe einfasst und den Schoner optimal positioniert. Dadurch wird die Schutzwirkung/Absorption erhöht und die Kraft vom Knie weg geleitet.

TRIGGER UPPER PROTECTIVE - BASE LAYER

- Removable Xmatter protective foam at back, shoulders and elbows
- Impact absorbing NockOut padding at chest and ribs
- FlexZip zipper that bends and flexes with movement
- Available in youth sizing
- EN1621-2:2014 L1 (back), EN1621-1:2012 (shoulder/elbow)
- Xmatter Protektionsschaum am Rücken und den Schultern (herausnehmbar)
- NockOut Polsterung im Brust-und Rippenbereich
- FlexZip, dehnbarer YKK Reissverschluss für erhöhten ergonomischer Komfort
- Kindergrößen erhältlich
- EN1621-2:2014 L1 (Rücken), EN1621-1:2012 (Schulter/Ellbogen)

SIZE KS, KM, KL, XSS, SM, ML, LXL, XXL
ITEM-NO. 482-510-6895-009 (GRAPHITE)

CARVE UPPER PROTECTIVE - BASE LAYER

- Removable Xmatter protective foam at back and shoulders
- Impact absorbing NockOut padding at chest and ribs
- FlexZip zipper that bends and flexes with movement
- Available in youth sizing
- EN1621-2:2014 L1 (back), EN1621-1:2012 (shoulder)
- Xmatter Protektionsschaum am Rücken und den Schultern (herausnehmbar)
- NockOut Polsterung im Brust-und Rippenbereich
- FlexZip, dehnbarer YKK Reissverschluss für erhöhten ergonomischer Komfort
- auch in Kindergrößen erhältlich

ITEM-NO. 482-510-3605-003 (BLACK)

TRIGGER RACE KNEE/SHIN GUARD

- Ergonomically formed Xmatter protection foam (exchangeable)
- Low friction impact shells to absorb and distribute impact
- Asymmetrical design, left and right individually formed
- Anatomically formed for improved comfort, flexibility and function
- AeroMesh, light, moisture wicking, breathable, anti-bacterial
- LoopLock closures
- Silicone stopper
- EN1621-1:2012 (L1)
- Ergonomisch vorgeformte Xmatter Polsterung (austauschbar)
- Protektionsschalen zu zusätzlichen Absorbierung von Aufprallenergie
- Asymmetrisches Design, Links und rechts individuell geformt
- Verbesserter Komfort durch anatomische Passform und Funktion
- AeroMesh, leicht, feuchtigkeitstransportierend, atmungsaktiv, antibakteriell, hohe Festigkeit, bester Komfort
- LoopLock Verschlüsse
- Silikon Stopper
- EN1621-1:2012 (L1)

SIZE S, M, L, XL, XXL
ITEM-NO. 482-510-1110-003 (BLACK)

CARVE RACE KNEE & ELBOW GUARDS

- Xmatter protection foam (exchangeable)
- Low friction impact shells to absorb and distribute impact
- AeroMesh, light, moisture wicking, breathable, anti-bacterial
- LoopLock closures
- Silicone stopper
- EN1621-1:2012 certified
- Xmatter Polsterung (austauschbar)
- Protektionsschalen zu zusätzlichen Absorbierung von Aufprallenergie
- AeroMesh, leicht, feuchtigkeitstransportierend, atmungsaktiv, antibakteriell, hohe Festigkeit, bester Komfort
- LoopLock Verschlüsse
